

Important Patient Information
4th September 2019

We want to make sure our patients and the town have the latest information on Brickfields Surgery, Greenwood Surgery and Kingsway Surgery (including Anson Close) moving to Crouch Vale Medical Centre.

We had hoped to move into the new building by 9th September alongside other NHS services. Unfortunately, highway works next to the site have not yet finished, so the medical centre is not yet accessible.

We met NHS partners who will also be based in the building to discuss the situation. We all agreed that we want your health services to be as ready as possible when residents start using Crouch Vale Medical Centre. To make sure of that, we will continue to operate from our current premises during September and let you know as soon as we have a date for the move.

If you have already booked a flu vaccination or other appointment with us towards the end of the month, we will update you if the location of your appointment changes. Thank you for your understanding – we are sorry that we cannot give you a definite date at this time.

**Brickfields Surgery, Greenwood Surgery and
Kingsway Surgery**
